

2005 JAY FEATHER™ ULTRA LITE WEIGHT TRAVEL TRAILERS BY JAYCO

It's hard to see your worries from this side of the mountain.

2005 Jay Feather[®] EXP

Find the simplest way
to take it easy.

Everyday life is a struggle against deadlines, appointments and constant demands of your time. But once you see fields of swaying grain, forests of fluttering leaves and skies that stretch forever, your mind clears and you feel those struggles lose their grip. Find an easy way to get there in Jay Feather[™]

EXP Ultra Lite Weight travel trailers. They expand your sleeping space with fold-down beds and make towing a breeze behind your minivan or SUV. Your only struggle will be leaving your campsite.

For more information go to www.jayco.com

Jay Feather[™] EXP's lightweight construction makes towing easy.

Pack the bedroom wardrobe's lightweight plastic tub drawers anywhere and slide them in when ready to travel. Pack more into our exclusive MaxiStor[™] system, with a huge outer door and room beneath a rear bunk.

Our exclusive hidden bunk cable support system eliminates support poles to make setting up quicker and easier.

Deep quilted bunk cushions provide extra comfort. Optional heated bed mats keep you comfortable even on chilly nights.

18 F EXP interior

Get consistent-tasting drinking water with the optional water purifier.

Attractive, matching bunk privacy curtains give you a little time to yourself.

Pack longer items in the front pass-through storage compartment.

The kitchen features beautiful cabinets with Westview maple doors, traditional, strong mortise-and-tenon joints and screwed stile construction. An oven and microwave oven are part of the Jay Feather™ EXP Customer Value Package.

Store plenty of food in the large pantry.

18 F EXP kitchen

2005 Jay Feather™ LGT

Clear your schedule ... and your mind.

Fishing at sunrise. Grilled perch at noon. A nap before supper. Your day is too full to fit in stress and headaches. That's why Jayco® makes Jay Feather™ LGT Ultra Lite Weight travel trailers ultra easy to tow. They're 10 to 15% lighter

than conventional travel trailers of similar length, so you won't have to fight to reach your favorite scenic setting. But you'll get the same roomy interior and ample cargo space — including pass-through storage — for all your stuff. Finding peace of mind has never been this easy.

26 S LGT interior

The bathroom gives you everything you need, such as a medicine cabinet with mirror and 12V vent fan — all standard.

2005 Jay Feather[™] LGT

Gain more floor space with the J-Steel[™] sofa slideout (select models). The easy-to-use electric power slideout comes standard.

Fit all your favorite clothes in the bathroom wardrobe (select models).

Jay Feather[™] LGT's lightweight design, smooth aerodynamics and independent torsion-axle rubber ride suspension system make it easy to tow.

Your music goes anywhere with the optional AM/FM/CD stereo, part of the Jay Feather[™] LGT Customer Value Package.

Your menu will be limited only by your imagination. Cook on the 3-burner range top, or use the oven or microwave oven, both included in the Jay Feather™ LGT Customer Value Package.

Our optional portable gas RVQ® barbecue grill lets you cook outdoors. It easily mounts on the outside of the trailer and comes with a handy carrying case.

Jay Feather™ LGT gives you a walk-around queen bed (N/A 19 W). A standard bunk over double bed (select models) adds extra sleeping space. Store loads of stuff under the bed with the optional innerspring mattress (part of the Jay Feather™ LGT Customer Value Package) that lifts easily on struts.

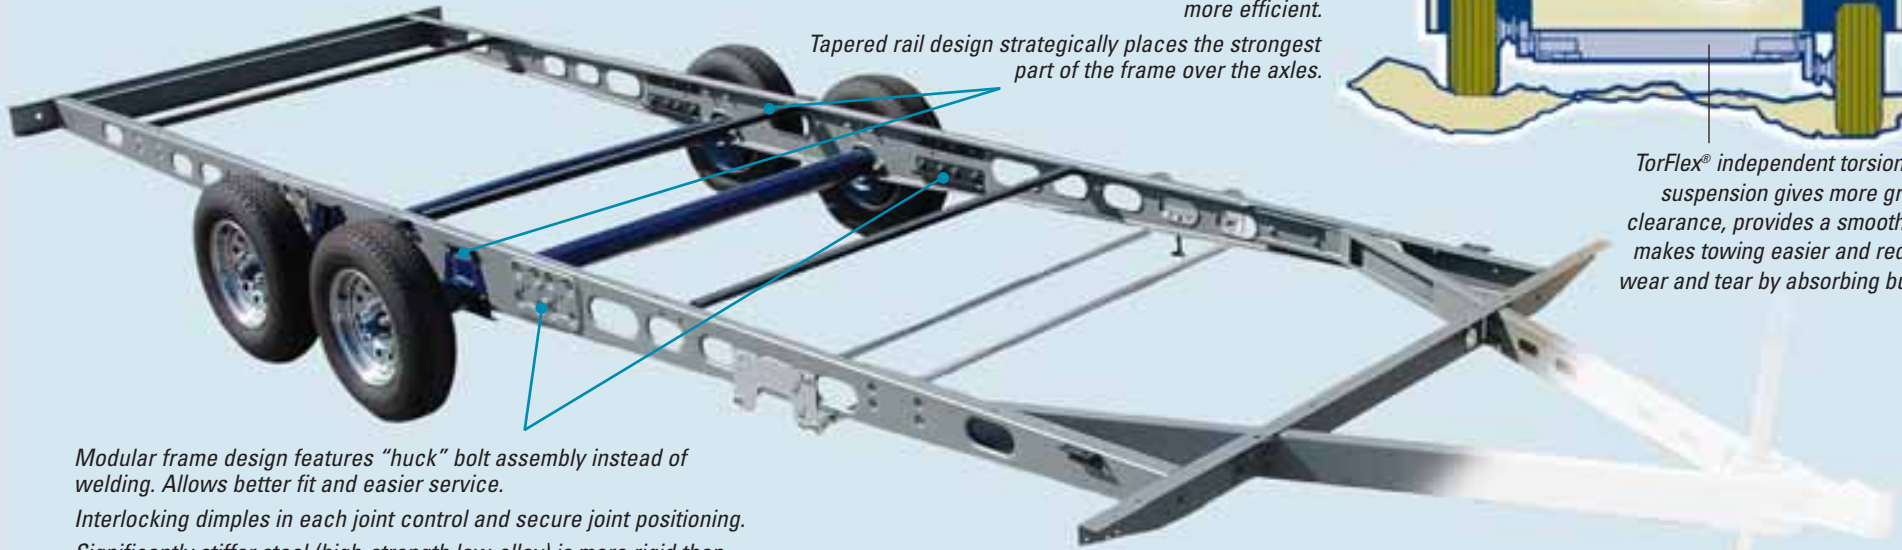

Built to last and to create lasting memories.

Frame is 10-15% lighter than the frame of conventional travel trailers.

E-Coat[™] automotive electronic paint process inhibits rust. Independently tested to withstand salt spray.

Aerodynamic design, lighter weight and standard enclosed underbelly (LGT) make towing easier and more efficient.

Tapered rail design strategically places the strongest part of the frame over the axles.

TorFlex[®] independent torsion-axle suspension gives more ground clearance, provides a smooth ride, makes towing easier and reduces wear and tear by absorbing bumps.

Modular frame design features "huck" bolt assembly instead of welding. Allows better fit and easier service.

Interlocking dimples in each joint control and secure joint positioning.

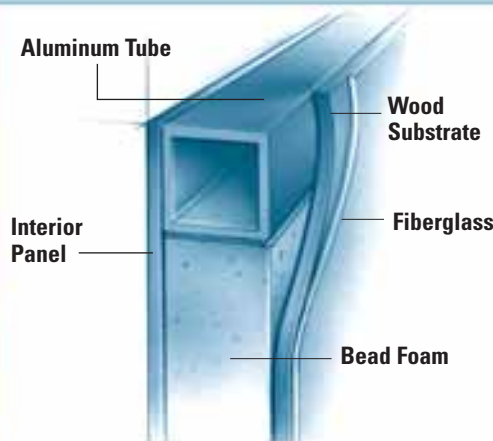

Significantly stiffer steel (high-strength low-alloy) is more rigid than the commercial-quality steel used in most conventional trailers.

The one-piece PolyFlex[™] underfloor covering makes towing easier by improving aerodynamics, and protects against road debris (enclosed underbelly on Jay Feather[™] LGT).

TuffShell[™] construction uses vacuum-bond laminated walls, roof and floor for smoother-looking, more durable walls than typical pinch roller construction.

E-Z Lube[®] axles with removable caps make maintenance simple.

Our rugged, corrosion-resistant frames feature a 12-stage E-Coat[™] finishing system and come with a lifetime warranty.

2005 Jay Feather[™] Sport

Travel light — leave all your burdens behind.

Sport 165 exterior

Jay Feather[™] Sport, our lightest-weight travel trailer, lets you tow behind the smallest tow vehicles. You may not have to upgrade your current family vehicle. And you get room for four, with a full 78" of headroom, anywhere you take it. It's the perfect size for a perfect outing.

Your Jay Feather[™] Sport slips through the air with Filon[®] fiberglass exterior sidewalls and a 26" white, radius-framed, smooth fiberglass entrance door.

A 20-lb. gas bottle provides power for appliances including water heater and 18,000-BTU furnace.

Be prepared with the optional spare tire with carrier and vinyl cover.

A bunk over the bed adds room for a child. The bathroom features all the essentials with a medicine cabinet with mirror and ABS tub/shower surround.

Two outside storage compartments provide extra space for essentials.

We fit everything you need into the kitchen, including flush-mounted 5-cu.-ft. refrigerator, 3-burner range with 9,000-BTU SuperBurner[™] and piezo igniter, microwave oven and optional 17" oven.

*Estimated

Unloaded Vehicle Weight (UVW): Sometimes referred to as "Dry Weight," UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, LP gas, options or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the trailer, including the UVW plus passengers, personal items, all cargo, fluids, options and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

Cargo Carrying Capacity (CCC): CCC means the maximum weight of all passengers, personal items, food, fresh water, LP gas, tools, other cargo and dealer-installed accessories* that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW.

*The addition of options will decrease the CCC.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a

[^] Fresh water capacity includes 6-gal. for water heater

veteran, get a feel for the performance of your tow vehicle and the RV together before heading out on the roadways. **When you tow an RV, you must drive differently than you do when driving a single vehicle.** Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction.

See specification chart above. Jayco® affixes a weight label to each new RV which lists weight information for that vehicle.

Tow Ratings

The following tow ratings are the highest available for the respective 2004 model year vehicles shown. Certain optional equipment may be required and other restrictions may apply. Consult the latest manufacturer's towing guide (available at your automotive dealership) or your vehicle owner's manual to verify the tow ratings provided.

We back what we build

The Jayco® **2+3 Warranty** is a manufacturer's limited warranty. It doesn't come from your dealer and it's not an extended warranty! It comes from the people who build Jayco

recreational vehicles to the people who buy them. Each Jayco is warranted to the original purchaser for twenty-four (24) months from the date of purchase against defects in materials and workmanship. The Jayco warranty includes a limited three-year (3) structural guarantee. In addition, our limited

warranty may be transferred one time within the first two (2) years. Go ahead and compare the Jayco warranty with other manufacturers' warranties. You'll find it's the best in the business! For a copy of the limited warranty with full terms and conditions, ask your local Jayco dealer or visit our Web site.

We also offer **five-year (5) coverage** on our tent with parts, labor and freight covered the first two years; parts, factory labor and return freight during years three, four and five.

In the heart of the Midwest, old-world craftsmen have handed down tried-and-true construction methods from

generation to generation. At our headquarters in Middlebury, Indiana, Jayco continues this tradition when building all of our recreational vehicles. Our rugged designs, solid construction and commitment to quality add up to a well-built vehicle you can depend on for years.

Popular Jay Feather[®] LGT options

Now you know why mom told you to go play outside.

The molded ABS rear bumper cover creates a smooth, attractive surface.

Take your tunes outdoors with the optional outside entertainment center, equipped with a spare 110V duplex power outlet and a durable, waterproof locking cover.

Reach stored items easily in the optional front storage compartment pull-out tray.

See dealer for further information and prices.

FAMILY OWNED. FAMILY FOCUSED.
