

EAGLE™
2006 Fifth Wheels and Travel Trailers

QUALITY IS STANDARD EQUIPMENT.

AMERICA'S MOST LIVEABLE RVS.

2006 FIFTH WHEELS & TRAVEL TRAILERS EAGLE

TRAVEL TRAILERS

2006 Eagle™ by Jayco®

To find out more about America's Most Liveable RVs, visit www.jayco.com

THE NEW STANDARD FOR STANDARD.

We don't think a manufacturer's list of options should be longer than their list of standard features. With every Eagle you get solid oak cabinet doors, pillow-top mattresses on queen beds. Travel trailers get diamond plate rock guards and fifth wheels get adjustable axles ... all standard.

1

2

3

1. Jayco's J-Steel® convertible sofa and dinette provide a relaxing spot to rest your feet after an active day.
2. You'll sleep like a baby on the pillow-top queen mattress covered in a luxurious, quilted bedspread.
3. Diamond plate protects from rocks and road debris. Pass-through storage area easily holds large items.

AMERICA'S MOST LIVEABLE RVs.

"Liveable," to our customers, it could mean comfort. To our designers, it's a refined, ergonomic floorplan. For those who build them, they see value. The definition is most likely "all of the above" ... and then some.

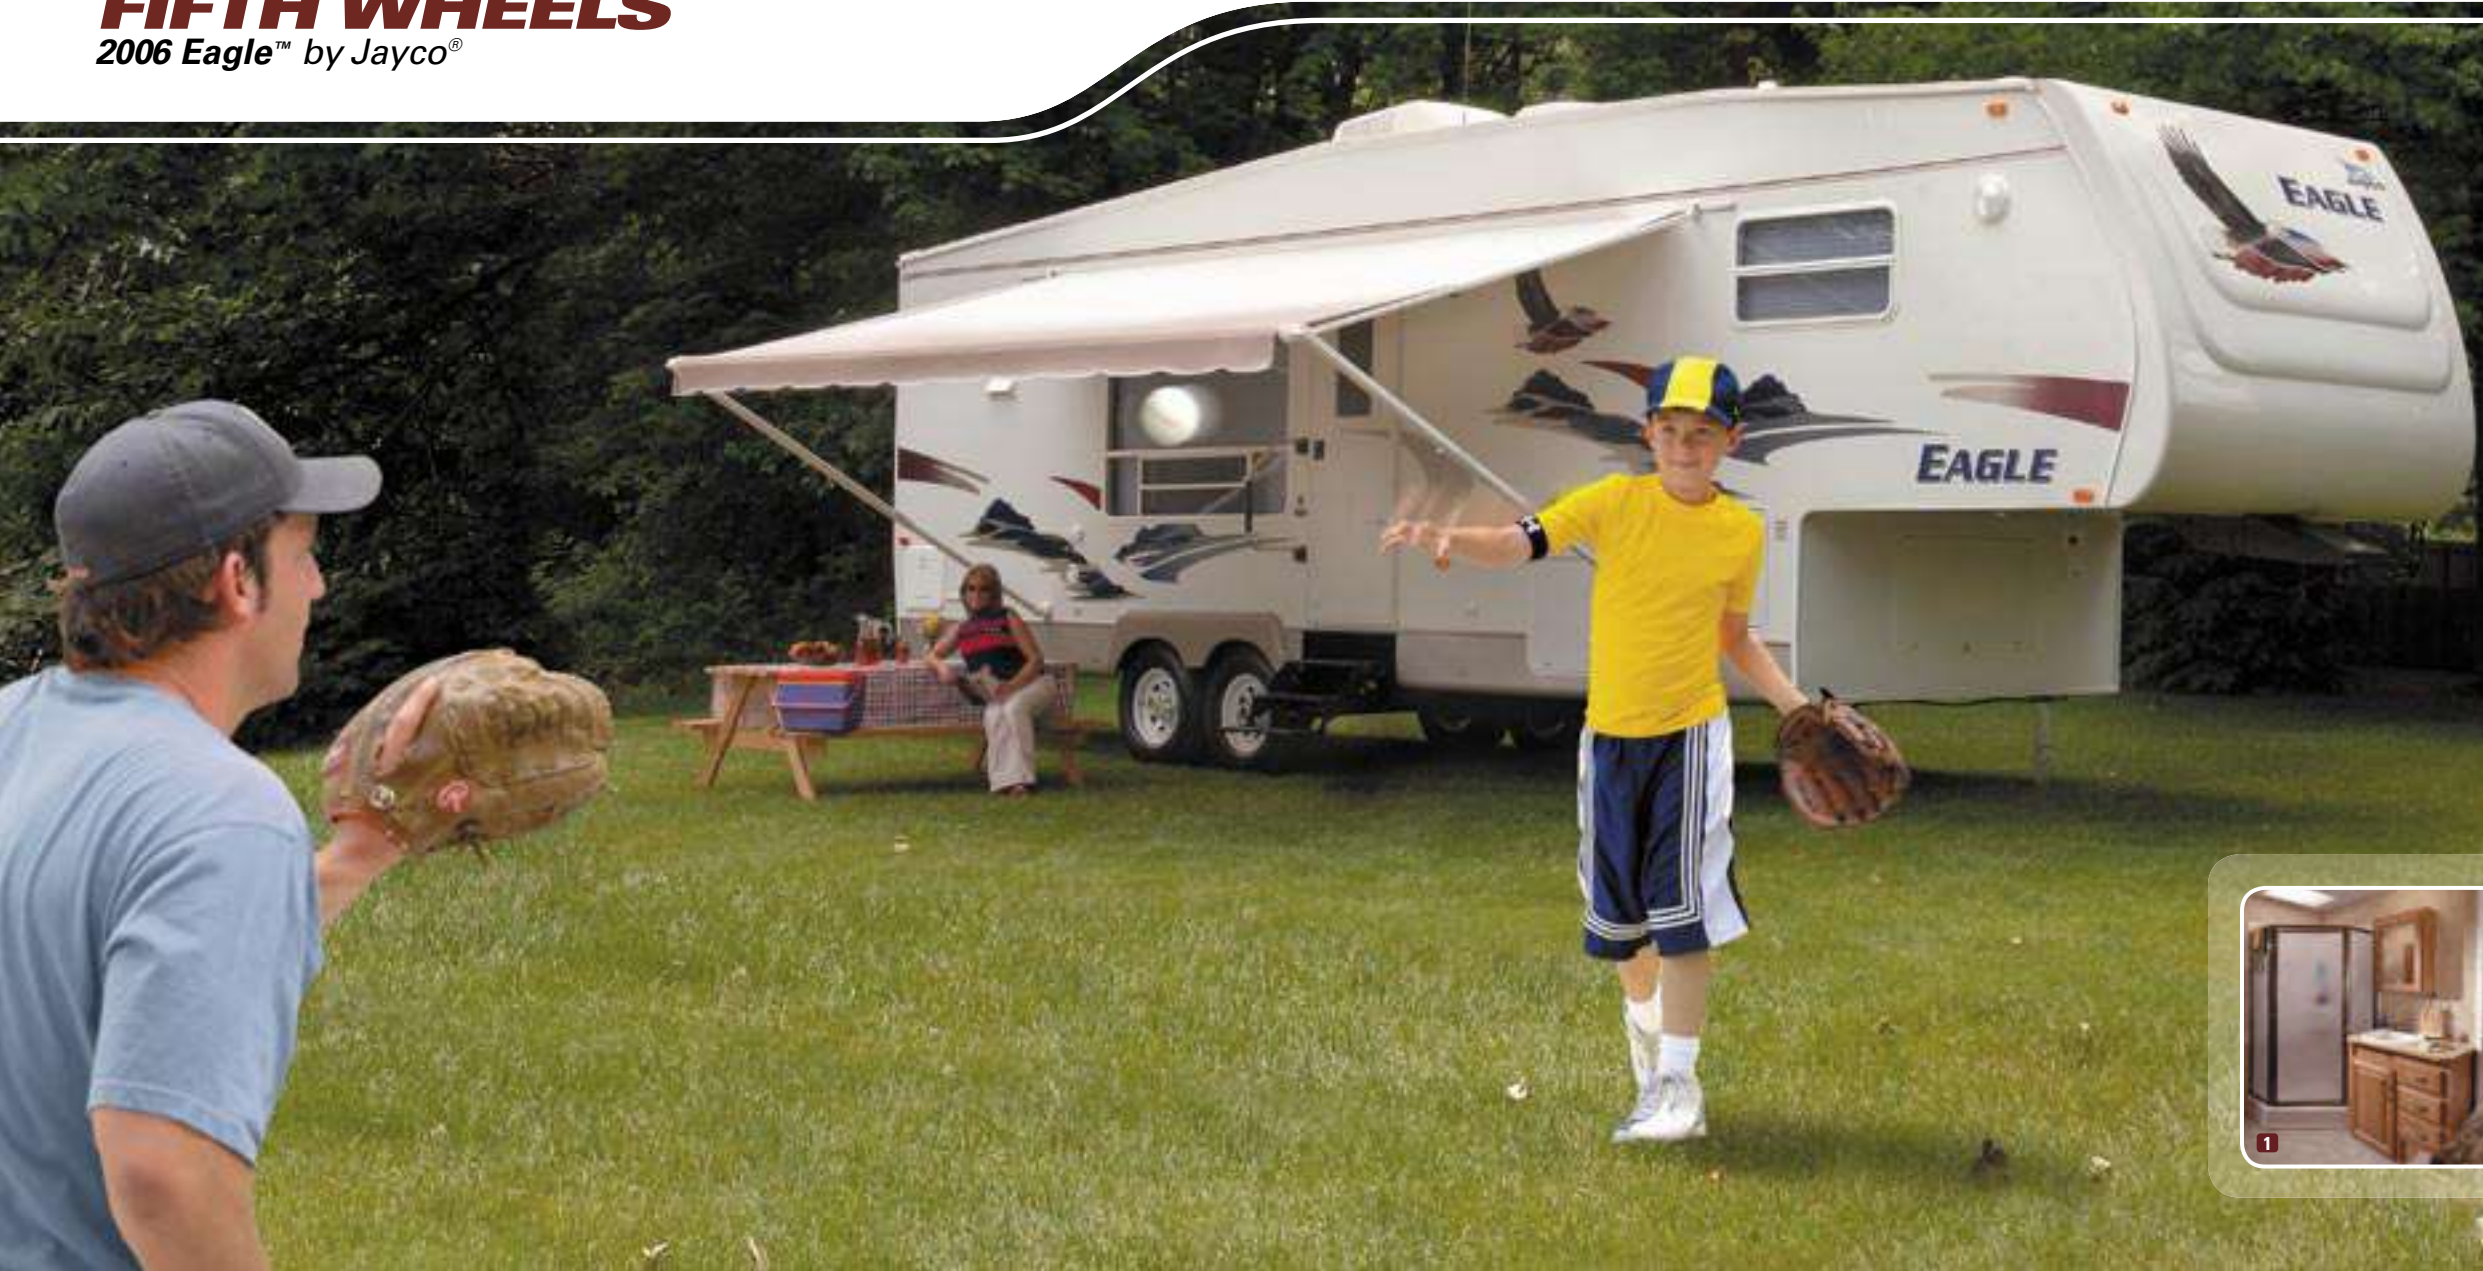

QUALITY IS STANDARD EQUIPMENT

FIFTH WHEELS

2006 Eagle™ by Jayco®

To find out more about America's Most Liveable RVs, visit www.jayco.com

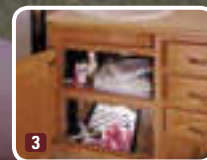

MORE THAN YOU EXPECT.

Take construction for example... vacuum-bonded sidewalls supported by welded aluminum framing. The Eagle chassis uses one-piece structural steel I-beams instead of welded together versions that could warp. Standard on every Eagle travel trailer or fifth wheel are slide-outs running on rack-and-pinion electric drive.

1. Wind down in your residential-style bathroom, complete with a medicine cabinet and mirror, ABS shower with tub surround and glass shower door.
2. The bedroom contains handsome Manchester Oak cabinetry, plush quilted bedspread and cushiony carpet.
3. Jayco combined all of the best kitchen amenities, resulting in the ultimate space for creating meals.

COMFORT IS IN THE DETAILS

1. A spacious front trunk allows you to conveniently store and protect bulky items like coolers and lawn chairs.
2. The Eagle's exterior shower makes rinsing off after outdoor activities easy and keeps the inside of your RV clean.
3. The bathroom's many upscale features include a laundry chute with basket (most fifth wheels).

QUALITY IS STANDARD EQUIPMENT

CONSTRUCTION FEATURES

2006 Eagle™ by Jayco®

Built to Last

Eagle travel trailers and fifth wheels are constructed with the highest quality materials and craftsmanship. So you can hit the road and start making memories without ever having to worry about the performance of your RV.

1. 4½' bowed truss roof rafters
2. Insulated A/C ducting
3. R-11 insulation
4. 3/8" roof decking
5. Filon® fiberglass sidewalls provide a low maintenance and abrasion resistant surface
6. Extra-strong TuffShell™ vacuum-bonded sidewalls are constructed with welded aluminum framing. Everything is anchored to the floor so the floor supports the weight of the walls.
7. Our aluminum framing is welded in jigs.
8. Strong 5/8" tongue-and-groove plywood flooring
9. Puncture-resistant PolyFlex™ lines the underside of the floor. All holding tanks are insulated and heated, and bottoms are wrapped to create a fully enclosed underbelly.
10. R-7 blanket insulation
11. Insulated in-floor ducted heating distributes heat evenly and frees up more space for cabinets.
12. Additional R-7 blanket insulation included in enclosed underbelly
13. 2" x 3" floor studs

Jayco Craftsmanship

Jayco has been blessed with some of America's finest craftsmen who make Middlebury, Indiana and the Jayco plant their home and workplace. Generation after generation, a legacy of tried-and-true construction methods is passed down, continuing the tradition of quality and durability that has helped Jayco grow into a true industry leader.

To find out more about America's Most Liveable RVs, visit www.jayco.com

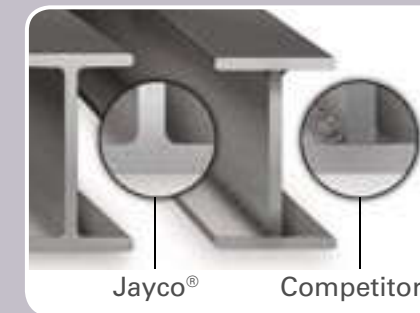

Standard Jake Plate™

The height of your tow vehicle will never be a worry. Eagle fifth wheels feature standard Jake Plate™ adjustable axle hanger plates. Twice as strong as traditional single spring hangers, they allow you to adjust the axle height up to 2" to accommodate tow vehicles of different sizes.

Aluminum Sidewall Framing

All of our sturdy construction features, including the standard sidewall aluminum framing of our TuffShell™ sidewalls, are there to give you peace of mind.

I-Class™ Chassis

Jayco's I-Class™ structural steel chassis frame is stronger and more durable than the welded I-beam used by many competitors, which is subject to warping.

Fiberglass Caps

Our fiberglass caps wrap around the sidewalls, protecting the Eagle from the elements and adding an attractive look.

V-Tec™ Slideout System

Jayco's V-Tec™ slideout expands your living space by the simple push of a button. A strong I-Class™ steel frame allows Jayco to utilize a flush-floor slideout system. Our V-Tec™ mechanism consists of rack-and-pinion drive, low-friction gearing, and high-torque electric motor.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle and the RV together before heading out on the road. When you tow an RV, you must drive differently than you do when driving a single vehicle. Practice hooking up, driving, backing up, and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. **See specification chart above.**

Unloaded Vehicle Weight (UVW): Sometimes referred to as "Dry Weight," UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, LP gas, options, or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the trailer, including the UVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

*Includes water heater capacity

Cargo Carrying Capacity (CCC): CCC means the maximum weight of all passengers, personal items, food, fresh water, LP gas, tools, other cargo, and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

Hitch Weight (HW): The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

Customer First Roadside Assistance

Travel worry-free in your Eagle recreational vehicle with Jayco's Customer First Roadside Assistance program, yours at no cost during your first year of ownership. This program is offered through Coach-Net®, the largest RV emergency road service in the country, and gives you immediate access to dependable roadside assistance and support services with a simple phone call.

Emergency Roadside Assistance

- Free jump starts
- Free tire changes
- Free fuel delivery
- Free lockout service
- Free travelers checks
- \$500 trip interruption reimbursement
- 24-hour toll-free emergency message service
- Toll-free nationwide service appointment assistance
- Free custom trip routing and full color map service
- Free dispatch of on-site mechanical service
- \$1,000 auto theft or hit-and-run reward

We Back What We Build.

The Jayco Co-Pilot Warranty is a manufacturer's limited warranty. It doesn't come from your dealer and it's not an extended warranty! It comes from the people who build Jayco recreation vehicles to the people who buy them. Each Jayco is warranted to the original purchaser for twenty-four (24) months or twenty-four thousand (24,000) miles (mileage limitation applies to motorized products only), whichever occurs first, from the original date of purchase against defects in materials and workmanship. In addition, our limited warranty may be transferred one time within the warranty period. Go ahead and compare the Jayco warranty with other manufacturers' warranties. You'll find it's the best in the business!

For a copy of the limited warranty with full terms and conditions, ask your local Jayco dealer or visit our website at www.jayco.com.

Your Jayco Dealer

See above dealer for further information and prices.

As a Jayco owner, you can be part of the Jayco Jafari International Travel Club. Ask your dealer about the Jafari "flight" in your area, write Jayco, or visit our web site.

Please Note: All information in this brochure is the latest available at the time of publication approval. Jayco reserves the right to make changes and to discontinue models without notice or obligation. Photos in this brochure may show optional equipment. RVs built for sale in Canada may differ to conform to Canadian codes.
